Locating Permalinks & Embed Codes:

**EBSCO Research Databases**

1. Access an EBSCO database, like Academic Search Complete. Please note: you can browse the CCCOnline Library's research databases for access to over 30 additional EBSCO databases.
2. Locate content by searching your topic or keywords.

![EBSCO database search interface]

3. After locating the content you’d like to use, select the title to open the result.

![EBSCO database result interface]

4. Select Permalink from the Tool Bar on the right side of the result.

EBSCO Research Databases

5. A light green box will appear above the article’s title. Copy the full link to the right of Permalink.

6. Select the permalink, copy it, and paste it into a news item, content, or discussion board in Brightspace. You may also include the permalink in emails. Students will click the link, and enter their S#, and be taken directly to the content.
