Locating Permalinks & Embed Codes:

*Gale Research Databases*

**GALE**

1. Access a [Gale Research Database](#). Please remember that we have 6 Gale products, so choose the one that is most appropriate for your topic.

2. Locate content by searching your topic or keywords, or by browsing the database.
Locating Permalinks & Embed Codes:

**Gale Research Databases**

3. After locating the article/resource you’re interested in, scroll to the bottom of the page and locate the URL.

4. **Permalink:** Select the URL copy it, and paste it into a news item, content, or discussion board in Brightspace. You may also include the permalink in emails. Students will click the link, and enter their S#, and be taken directly to the content.
