Locating Permalinks: ProQuest Research Databases

- 1. Access an EBSCO database, like <u>Social Science Premium Collection</u>. Please note: you can browse the <u>CCCOnline Library's research databases</u> for access to more than 10 additional ProQuest databases.
- 2. Enter your S# (s0000000).

CCCONLINE LIBRARY
The CCCOnline Library's electronic resources and databases are available to current CCCOnline students or instructors. To access these resources, please login using your S#, including the S. For example: S0000000. Please enter your S#: Login
Login Assistance
If you cannot login, but are currently enrolled in CCCOnline courses and have a S#, please contact the library. Can't remember your S#? Your home college can help!
Research Assistance
Are you looking for research guides or research assistance? The CCCOnline Library is here to assist!

3. Locate content by searching your topic or keywords.

Abstract Translate				dd to Select	ed items			
The purpose of this article is largely theoretical, it asks what type of perspective is needed in order for left libertan to develop a deeper understanding of global warming. This way of framing the question builds on a set of premise out. First, alobal warming is real. Second, the reality of alobal warming exists independently of our discourse abou	ans and ar s which I w ut it. Third. (vill spell alobal	ccco	nline.org/libra	агу			
warming will have real and dangerous consequences for humans and human society. Fourth, we do not have full k global warming and climate change, and we must reach a deeper understanding. Fifth, the urgency of global warm we act before we know everything we want to know about it. Sixth, human societies have an inherently creative ca	knowledge ning demar apacity to fi	about nds that ind	Docu (2404	iments with 4)	shared referenc	es		
solutions to the challenges posed by global warming, Ethical thinking about global warming cannot, therefore, be of human consciousness, language and discourse; global warming forces us to rethink our relationship with natur paths to understanding nature and reality in a theoretically serious manner (in the Hedelian sense of the word ser	reduced to re and our p ious') - that	the realm possible t is, in	Bela	ted items		~
